***Audubon Nature Institute takes a look at  
Parc des Familles***

Jefferson Parish has entered into an agreement with the Audubon Nature Institute to move forward with a feasibility study and market analysis for the Parc des Familles.

Constantly attuned to local needs, Audubon Nature Institute shapes its myriad programs to benefit our community at all levels, from providing much needed educational resources to nurturing economic development.

Audubon Nature Institute is a private, not-for-profit member organization with a collection of world-class family attractions dedicated to "Celebrating the Wonders of Nature." More than 3 million people visit Audubon Nature Institute's nine facilities and parks along the historic Mississippi Riverfront in New Orleans each year. The purpose of the Audubon Nature Institute is celebrating the wonders of nature by creating a family of parks and museums dedicated to the natural environment.

For more information, please contact Jefferson Parish Councilman Chris Roberts, at 504-364-2607.
