

I received many calls throughout the day about 2 younger kids placing curb side painting flyers on our doors. **(See attached flyer)** We contacted them by phone immediately and they agreed to stop delivering the flyers since the facts on the flyer was not true. Based on the people that seen them in the neighborhood and the conversation I had with one of the boys on the phone, they seem like great kids trying to make alittle money and didn't mean any harm by the stating you would receive a \$500 fine. I made a few calls to research this and was unable to find anyone that knows about any fines or deadlines. I personally had the curb painting done at my house about 6 months ago for \$20, so this actually sounds like a great deal for only \$10.

According the Jefferson Parish website, you must display your address. Your address must be visible at night to emergency response personnel.

Look at the bottom of the Jefferson Parish page titled "Did you Know?"

<http://www.jeffparish.net/index.cfm?DocID=1896>

The bottomline is in an emergency, every second counts. So use this opportunity to ask yourself if your house can easily be found in an emergency.

The following can easily find your address:

- * EMS
- * Police Dept
- * Fire Dept
- * Post Office
- * Utility companies
- * family and friends
- * and even your pizza delivery person

Thank you all for being so vigilant and reporting to us. It's one of many reasons I love the open communication amongst people in Plantation Estates and you can call anytime.

If you have questions, please let me know.

E&J CURB SIDE

It has been set in law that your house number has to be painted on your curb for emergency purposes and your address must be in black and white. By September 15 it must be posted or a \$500 fine will be mailed to you. But today is your lucky day E&J CURB SIDE is running a special we will paint your numbers for only \$10.
