

Hello friends and neighbors,

It's 8:00 PM and I just spoke to my neighbor on Melrose Drive. He and his wife are planning to stay and ride out the storm. My neighbor and others will check on the neighborhood and we'll provide you an update. He told me the rain and wind has started. If you happen to have ways to find out updates on the neighborhood as well, let me know.

Until the electricity goes out, I'm able to view my camera's on the front of my house. Attached is a snapshot view of my camera's at 8:00 PM right now. The rain is making it alittle blurry, but its better than nothing. If you complain, I promise to refund your money.

I'll email you as I hear anything else.

Charlie III
