

Whitney Bank coming soon at Parlange & Lapalco (1/12/2007)

Dear Plantation Estates Homeowners,

As you may have heard announced in the past, Whitney Bank will be coming this year in 2007. They will soon install the sewage lines along this property at Parlange & Lapalco. As luck would have it, the sewer line stub out was installed many years ago to provide sewer service to the property along Parlange Drive and is most likely located in or around the vicinity of our entrance sign and garden on Parlange. They will use machines to dig for the sewer stub out and trenching along the rear fence line to install a sewer line to service the front portion of the property in the vicinity of Lapalco and Parlange. All of the work should be completed in about 10 days. The contractor will make every effort to dig under or around the sign and garden so it doesn't get affected. This will be determined once they get into the project. Even if the sign needs to be moved temporarily, MarreroLand has no problems with us keeping the sign location while the back part of their property is not being used.

Just wanted to keep everyone informed when you notice the work occurring at this location.

Thanks. Go Saints !!!!
